An Iowa woman declares that women make ideal undertakers. Well, they ought to—they're used to laying out men.

We understand that a communication from Mars states that it has definitely been decided in that

country that there is no hereafter for the stool-pigeon.

Fred Balcom, a young resident of the High River district, was frozen to death recently. His remains were found in a stable on the outskirts of the town.

TOWN COUNCIL IN REGULAR SESSION

The regular fortnightly meeting of the town council took place on Monday night, the mayor, A. McLeod, and Councillors Gillis, Montalbeti, McDonald, McVey, Bartlett and Pienarillo and Secretary Wright being present.

The minutes of the previous regular meeting were adopted as read and the following accounts passed for payment, subject to approval of the committee: N. Gregori for street work \$4.55, C. Paula for haulage \$2.00, J. Mancini for street work \$2.50, E. J. Pozzi for Fifth Avenue crossing \$2.80, H. J. Benson for draying \$154.00, J. Montasela \$67.20, J. Lenchucha \$23.45, A. Nooga for street work \$44.20, G. Petruni \$19.30, A. Nooga \$11.05, G. Petruni \$11.05, Joe Howe \$6.50, P. Barattelli \$7.90, G. Smith \$14.50, J. H. Davis \$101.00, R. Smallwood \$21. West Canadian Collieries for October electric current \$1307.70, Henderson and Hughes \$60.00.

Application of the McLaren Lumber Co. for permission to connect a four-inch pipe to water main near dam, for fire-fighting and other purposes at the mill, was granted.

On motion it was ordered that fire equipment, fixtures, furniture, stationery, etc., contained in town hall be covered by insurance.

The Mayor and Secretary-Treasurer were authorized to complete lease with J. E. Gillis, covering unpaid portion of interest in town hall property. The Secretary placed on the table an abstract of water department affairs, which were very satisfactory.

An agreement was entered into with Mr. A. Morency, whereby he undertakes to collect water and light rates for October, or to date, for which he would expect a very good fee. Mr. Morency was commended for the interest he displayed in this matter.

On motion, Mr. A. Morency was appointed assistant-chief of the fire department, to which Councillor McDonald only registered objection.

On motion the matter of selecting and purchasing necessary equipment for the fire department was left with the Fire and Light Committee, who would act upon the advice from the chief and sub-chief of the fire department.

In the above connection, Mr. Morency asked that in purchasing preference be given to local dealers.

Councillor Gillis gave notice that at the next regular meeting of the council he would introduce a by-law appointing a returning officer for the forthcoming municipal elections.

Council resolved into a Court of Revision, when the assessment roll as amended was passed upon. The meeting adjourned at 9.15.

HUGH M. SHAW
Meighen-Government Candidate for
Maricled Federal Riding.

Rev. Mr. Day, of Fishburn, was in town on Monday.

If all the local people who expect to go heaven got there, it will not be such an ideal place after all.

BACHELORS' BALL'S A WHALE!

Socially and financially, the ball given by the Bachelors of Blairmore at the opera house on Tuesday night was a record breaker. Slightly over four hundred were in attendance and all seemed to have enjoyed themselves. It is customary in connection with such an occasion to make particular reference to the variation of dresses, but on this occasion space would never permit, and all we can say is that everyone and ourselves were impressed with the ubiquity of the chef's raiment. Our esteemed fellow citizen and side-kicker, Valentine Rinaldi, former impersonator of his nibs the Kaiser, looked the part and did the part of chef in down right style, and all were enthused with a spirit of admiration for him. Special robes of tissue, typical of the frailness of bachelorhood, were worn by everyone present, and the varied colors seemed to reflect on the elaborate and tasteful decorations of the hall. Lanterns and other novelties galore simply wrapped in the gay assemblage and seemed to add no small amount of pleasure to the affair. Midnight found all prepared to be attended to by the chef and his able staff of assistants, and 'till since Noah landed us on this dry soil has such a complete spread of nectars been served. It was noticeable throughout the entire affair that the bachelors and old maids were not at all isolated, but various methods were used by the more fortunate (?) to show their sympathies. Music was furnished by the Banff orchestra. The gross returns amounted to upwards of \$500, practically all of which were used to defray the expenses connected with this elaborate affair. The committee in charge are to be commended for the able and efficient manner in which they performed their task.

Judging by the attendance at the opera house on this occasion, it appears that the time is not far distant when a much larger hall room will be necessary to cope with the growth of our town.

A large number of people were present from Calgary, Lethbridge, Cranbrook, and intermediate points.

LIBERAL MEETING AT COLEMAN

We are asked to announce that a meeting of Liberals will be held in the Graham hall at Coleman on Friday night, November the 18th, at 8 o'clock sharp. All Liberals are requested to attend and a special invitation is extended to representatives of other towns in the district.

Sad Accident at Greenhill Mine

An unfortunate accident occurred at Greenhill mine yesterday by which an Italian miner, known popularly as Byo, lost one eye completely and sustained such injury to the other that doctors fear they will have to remove it. It seems that Byo was using explosives and in some unaccountable manner set off a charge, receiving the full effect in the face and head. He was removed to the hospital where every attention is being given him. Byo is about thirty years of age and one of the best known and most popular miners in the district.

A Chicago doctor has discovered that radium, eaten, prolongs life. How would you like to sit down to a helping of radium fritters at \$100,000 a gram.

The house of representatives at Washington passed a bill authorizing \$4,000,000 to complete the Alaskan railway.

We understand that the government will soon require licenses for shooting golf.

It will soon be that a girl will be considered over-dressed if she wears an engagement ring.

A British Columbia paper remarks: "Owing to the superior intelligence of British Columbia electors they may be trusted to know how to vote without the 'educational campaign' considered necessary in other provinces."

W. E. McNeill, secretary of the Coal Operators' Association, was in town the early part of the week.

Those people who claim that we ought to work only two hours a day will never realize their dreams, because such a condition would necessitate the working of the criminal court machinery night and day.

See that your name is on the municipal voters' list if you feel that you should be entitled to vote.

Discovered True Remedy For Systematic Catarrh

A bad case of Catarrh is not an easy thing to treat, and a remedy that makes good, deserves great credit. Catarrhose certainly treat up Chas. H. Webb, who writes from "Woodstock": "For a number of years I was troubled with systematic Catarrh. Nothing helped me very much. I used Catarrhose Igniter and got relief. To build up my system, I used Perune. This combination can't be beaten. They made me well. Your case may also be bad, but Catarrhose will do for you what it did for Mr. Webb. Two months treatment \$1.00, small size 50c. All dealers or the Catarrhose Co., Montreal."

Oh, Money! Money!

— BY —
FLEANOR H. PORTER

Printed by Special Arrangement
with This, Allen,
Toronto, Ont.

(Continued)

"Gee I should say—though I can't say I'm stuck on the brand myself. But, as for this money business, do you know? I'm as bad as Flo. I can't seem to get—that it's not tough! Look at Hattie now. Ain't she swingin' the style to-night?"

"She certainly is looking handsome and very happy. And I believe in takin' some comfort as you go along—not that I've taken any in time past. But I'm glad now."

"Good! I'm glad to hear that."

"Well, I am. Why, man, I'm just like a potato-pot grown in a cellar, and I'm comin' out and get some sunshine. And Mellicent is, too. Poor child! She's been a potato-pot in a cellar all right. But now—Have you seen her to-night?"

"I have—and a very charming sight she was," smiled Mr. Smith.

"Ain't she now? Well, she's father beamed proudly. 'Well, she's going to be that right along now. She's gain' where she wants to go, and do what she wants to do; and she's going to have all the fancy flum-diddies to wear she wants.'"

"Good! I'm glad to hear that, too," laughed Mr. Smith.

"Well, she is. This says is all very well, of course, when you have to. But I've saved all my life, and by jingo, I'm goin' to spend now. You see if I don't."

"I hope you will."

"Thank you. I'm glad to have one on my side, anyhow. I only wish—You couldn't talk my wife round to your way of thinkin', could you? She shrugged, with a whimsical smile. 'My wife's eaten sour cream to rave the sweet all her life, and she ain't learned yet that if she'd eat the sweet to begin with, she wouldn't have no sour cream, wouldn't have time to get sour. An' there's apples, too. She eats the specked ones always; so she don't never eat anything but the worst there is. An' she says they're the meanest apples she ever saw. Now I tell her if she'll only eat the best there is every time, as I do, she'll not only enjoy every apple she eats, but she'll think they're the nicest apples that ever grew. Funny, ain't it? Here I am havin' to urge my wife to spend money, while my sister-in-law here—Talk about dicks takin' to the water! That ain't Jim's little wife, the way she walks into Jim's little pile.'"

Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness.

He tells his own story in this letter.

Mr. Ralph A. Roberts,
Lovers, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39."

"Then I read about people being restored by Dr. Chase's Medicine and after three months' use of Dr. Chase's Nerve Food and Kidney-Liver Pills I found that my bowels were restored to normal movement each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these pills."

Dr. Chase's Nerve Food, 50c a box; Dr. Chase's Kidney-Liver Pills, 25c a box, all dealers or Edmondson, Bates & Co., Ltd., Toronto.

W. N. U. 1294

Mr. Smith laughed. By the way, where is Mr. Jim?" he asked.

"The other shook his head."

"Hain't seen him—but I can guess where he is, pretty well. You go down that hall and turn to your left. In a little room at the end you'll find him. That's his den. He told Hattie it was the only room in the house he'd ask for, but he wanted to fix it up himself. Hattie's wanted to buy all sorts of truck and fix it up with cushions and curtains and Japanese sinners like she sees in a den in a book, and make a show-place of it. But Jim held out and had his way. The ain't nothin' to it but books and chairs and a couch and a big table; and they're all old—except the books—no Hattie don't like much when she's showin' off the house. You'll find him there all right. You see if you don't. Jim always would rather read than eat, and he hates shindies of this sort a little worse 'n I do."

"All right. I'll look him up," nodded Mr. Smith, as he turned away. Deliberately, but with apparent carelessness, strolled Mr. Smith through the big drawing-rooms, and down the hall. Then to the left—the directions were not hard to follow, and the door of the room at the end was halfway open, giving a glimpse of James Blaisdell and Benny before the big fireplace.

With a gentle pat and a cheerful, "Now allow intruders!" Mr. Smith pushed open the door.

James Blaisdell sprang to his feet. "Mr. Smith, come in, come right in!" The frown on his face gave way to a smile. "Thought I'd never see you."

"Well, never mind what I thought. Sit down, won't you?"

"Thank you, if you don't mind."

"Hain't no great news, but I'm glad to see you. Ain't it great?" beamed Benny.

"It's most as nice as Aunt Maggie's, ain't it? And I can eat all the cookies here I want to, and come in even if my shoes are muddy and bring the boys in, too."

"It's certain—'s great," agreed Mr. Smith, his admiring eyes sweeping the room again.

"To Mr. Smith it was like coming into another world. The deep, comfortable chair, the shaded lights, the happy glow on the hearth, the book-lined walls—even the rhythmic voices of the distant violins seemed to sing of peace and contentment."

"'Dad's been showin' me the books he used to like when he was a little boy. He's got a lot of 'em—books I mean."

Mr. James Blaisdell stirred a little in his chair.

"I suppose he have crowded them a little," he admitted. "But, you see, there were so many I'd always wanted, and when the chance came—well, I just bought them; that's all."

"And you have the time now to read them?"

"I have, thank— Well, I suppose I should say thanks to Mr. Stanley," he laughed, with some embarrassment. "I wish Mr. Pullen could know—how much I do thank him. He finished school, he's eyes carassin' the rows of volumes on the shelves. 'You see, when you've wanted something all your life—' He stopped with an expressive gesture."

"You don't care much for—that, then, I take it," interrupted Mr. Smith, with a wave of his hand toward the distant violins.

"You know, there's only one thing worse than a party, and that's two parties," piped up Benny from his seat on the sofa.

Mr. Smith laughed heartily, but the other looked still more discomfited.

"He's right," said Mr. Smith, "telling tales out of school," he murmured.

"Well, 't's out of school, ain't it?"

"You wait till you find what there is in these books, my son," smiled his father. "You'll love them as well as I do some day. And your brother?"

He paused, a swift shadow on his face. He turned to Mr. Smith. "My boy, Fred loves books, too. He helped me a bit in my buying. He was in here—a little while ago. But he couldn't stay, of course. He said he had to go and dance with the girls—his mother expected it."

"Ho! Mother! Just as if he didn't want to go himself!" grinned Benny defiantly. "You couldn't hire a lawyer to sue her, especially if Pearl Gaylord's round."

"Oh, well, he's young, and young feet always dance when Pan pipes explained the father, with a smile that was a bit forced. But Pan doesn't always pipe, and he's ambitious."

The man turned eagerly to Mr. Smith again. "He's going to be a lawyer, you see, he's got a chance now. He's a fine student. He led his class in high school, and he'll make good in college. I'm sure. He can have the best there is now, too, without killing himself with work to get it. He's got a fine mind, and—"

The man stopped abruptly, with a shamed laugh. "But—enough of this. You'll forgive the fond father, I know. I always forget myself when I'm talking of that boy—or, rather, perhaps it's that I'm remembering myself. You see, I want him to do all that I wanted to do—and couldn't."

"And—"

"Jim, Jim!" It was Mrs. Hattie in

RED DIMPLES ITCHED TERRIBLY

On Chest, Face, Arms, Burned
Badly, Cuticura Heals.

"Ever since I can remember, my chest, face, and arms were filled with dry, red pimples. They were very itchy all over me, and itched terribly at times, and I scratched them, causing them to fester and get sore. Sometimes they would dry away again, but scales which burned badly."

"Then I used Cuticura Soap and Ointment. I had used them two or three times when I felt better and I was healed with one box of Cuticura Soap." (Signed) Miss Bertha Kane, Russell, Manitoba, February 19, 1919.

Use Cuticura Soap and Ointment for all itchy eruptions. Soap to cleanse, Ointment to soothe.

See 25c. Ointment 75c and 50c. Sold throughout Canada by all druggists. Cuticura Soap, St. Paul, St. Montreal. Cuticura Soap, Wash and Soap.

the doorway. "There, I might have known I'd find you. Come, the guests are going, and are looking for you to say good-night. Jim, you'll have to come. Why, what'll you say? They'll think we don't know anything—how to behave, and all that. Mr. Smith, you'll just come, I know."

"Most certainly," declared Mr. Smith. "I must be going myself, for that matter. He finished, and he followed his hostess through the doorway."

Five minutes later he had found Miss Maggie, and was making his adieux.

Miss Maggie, on the way home, was still very silent.

"Well, that was some party," began Mr. Smith, after waiting for her to speak.

"It was, indeed."

"Quite a house."

"How pretty Miss Mellicent looked!"

"Very pretty."

"I'm glad at last to see that poor child enjoying herself."

Mr. Smith frowned and stole a sideways glance at his companion. "Was it possible? Could Miss Maggie be showing at least a tinge of envy and jealousy? It was so unlike her!"

"Even Miss Flora seemed to be having a good time, in spite of that funeral black," he hazarded again.

"Yes."

"And I'm sure Mrs. James Blaisdell and Miss Beattie were very radiant and shining."

"Oh, yes, they—shone."

Mr. Smith bit his lip and stole another sideways glance.

"Er—boy did you enjoy it? Did you have a good time?"

"Oh, yes, very."

"There was a wiser streak, as you say, in that long breath and began again."

"I had no idea Mr. James Blaisdell was so fond of—er—books. I had quite a chat with him in his den."

"He says Fred—"

"Did you see that Gaylord girl?"

Miss Maggie was gazed into and then life. "He's perfectly bewitched with her. And she—that ridiculous woman—for a couple of years, I wish Hattie would let those people alone!"

"Oh, well, he'll be off to college next week," soothed Mr. Smith.

"Yes, but whom with? Her brother Fred and her whole lot of life. If anything, why, he was drunk to begin with, and when he came! I don't want Fred with him. I don't want Fred with any of them."

"No, I don't like his looks myself very well, but I fancy you, Mr. Blaisdell has a pretty level head on him. His father says—"

"His father worships him," interrupted Miss Maggie. "He worships all those children. But into Fred—Fred he's pouring his whole lot of youth. You don't know. You don't understand, of course, Mr. Smith. You haven't known him all the way, as I have."

Miss Maggie's voice shook with suppressed feeling. "Jim was always the dreamer. He fairly lived in his books. They were food and drink to him. He planned for college, of course. From boyhood he was going to write—great plays, great poems, great novels. He was always scribbling—something. I think he even tried to sell his things, in his teens; but of course nothing came of that—but rejection slips."

(To be continued.)

Wheat From Montreal

By the end of the navigation season this year it is expected there will have been more than 125,000,000 bushels of grain shipped from Montreal, a total which is nearly twice as much as that shipped in any previous season and more than the total shipped from all other Atlantic ports combined.

Farmer—Would you like to buy a bag of cereal?

Thouist—Well, it's ambitious and willing to work!—New York World.

WORLD'S BEST REMEDY FOR GRAVEL, RHEUMATISM AND BLADDER TROUBLES

If Losing Looks or Strength Read This Carefully

Once you were robust, bright and happy. Today you are dull, worried, falling in vitality and appearance. Just when you should be at your best you're played out and need a cleansing medicine. In a week you'll feel like new! All dealers, 25c, or The Catarhose Co., Montreal.

The Winter Bed

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

With the advent of cooler weather, every housewife is going over both beds and their furnishings with a view toward making them comfortable for winter. For, while many enjoy a nap on the couch with the merest sheet drawn about us in the summer's heat, only a well-made bed, with warm, comfortable furnishings, will do in winter.

In almost all our large housefurnishings shops sales of sheets, pillow slips and blankets, as well as comforters or quilts, tempt us. Before making up her mind as to what she needs, each woman in charge of a home should go carefully through the details of making the bed. Then let down reminders.

To make a bed, first be sure that the mattress is the other side up from what it was the night before. Turning the mattress keeps it from becoming lumpy in one place. You may decide that you want your mattress in two sections to facilitate turn-

ing. In buying a new mattress or under the lower sheet. Have under sheet right side up, broad hem at top. Have second sheet wrong side up, broad hem at top. Be sure that both sheets have middle crease exactly in the middle of the bed.

In purchasing sheets, the width will depend upon whether you are purchasing the sheet for a single or three-quarter or full size double bed. But—every worthwhile sheet must be two and three-fourth yards long, to enable one to properly tuck it in and protect the mattress. In buying sheets insist upon having the sheet measured in your presence.

Put the blanket on the bed at least eight inches below the top of the bed and turn the top sheet down to keep the blanket clean. Both sheets and blankets should be tucked in with the square hospital corners and should be pulled so tight that there is not a wrinkle anywhere. All the blankets or sheets are purchased too small in size, this cannot be properly done and the wrinkling will cause the sleeper much discomfort as well as give the bed an untidy appearance.

The spread should be put on next. The corners may be turned in at the sheets, but the sides of the spread may be allowed to hang.

If a pillow is clean and smooth and lies very square upon the bed, it adds beauty and attractiveness to the bed. Therefore, be careful to purchase pillow slips that are a good fit for the pillows they encase.

If a comforter is used, roll it neatly and place it at the foot of the bed. Have the salesman show you the comforters filled with silk floss or down. These are light in weight, but give much warmth on cold nights.

Bed furnishings, unlike styles in clothing, do not go out of style. It is therefore advisable to have a goodly stock on hand—at least a dozen sheets for each two beds.

All-wood blankets are an investment. Buy them at a reliable shop and then use good care of them. They will last for years.

"Stands Strenuous Wear"

It wears longer. Stanfield's Unshrinkable Underwear. Men who work outdoors need the comfortable warmth of Stanfield's "Red Label" Underwear. "Faddy" Appetites

When the digestive organs are out of order you need the help of Hatter's Syrup. The best medicinal extract of which the Syrup is made restores tone and strength to jaded stomachs, makes food yield nourishment and save from the many ills which indigestion brings. Hatter's Syrup is now sold in 50c and \$1.00 bottles at drug stores.

Revenue of Manitoba

Big Sums Collected by Provincial Government in Taxation

During the past year the Provincial Government of Manitoba has collected \$9,900 as a result of the amusements tax. Last year there was spent in Manitoba for amusements \$3,763,808, while soda fountains alone yielded in taxes \$2,225,000. The following items of revenue will be obtained by the Manitoba Government this year: Automobile Licenses, \$600,000; corporation taxes, \$900,000; auction duties, \$400,000; marriage licenses, \$10,000. The total expected revenue of the province is estimated at \$7,770,112.

Banana Tree Yields Most Food

No plant gives such a quantity of food to the acre as the banana. It yields 44 times more by weight than the potato, and 133 times more than wheat. Moreover, no insect will attack it, and it is always immune from disease of any kind.

The oldest building in Rio de Janeiro is the Church of St. Sebastian, begun two years after the city was founded in 1555.

P. BURNS CO. DONATES CURLING CUP

Word was received on Monday of this week that P. Burns & Co., who have several branches operating in the Crows' Nest Pass, had decided to offer a cup for competition between the curling teams of Coleman, Blairmore, Bellevue, and H. Herest.

It is understood that the cup is offered in behalf of the district branches of the above towns, and the announcement is made through the district manager, Mr. W. Shaw, of Lethbridge.

TAXATION

Perhaps no problem which has loomed upon the legislative horizon during the past few years has assumed such importance in the eyes of the general public as that pertaining to municipal taxation. More money is needed by nearly every administrative body in British Columbia, while the government must have more revenue in order to keep pace with expenditures. Every possible source of revenue has been under consideration, from appropriating half the wealth of the rich down to taxing used cars. The government proposed giving the municipalities the personal property tax, but many of the larger cities do not have this. A strong complaint has gone up from industrial heads all over the province to the effect that such a step would result in the stagnation of industry and even the removal of many firms from the province in order to avoid the increased burden.

An increase in the income tax may be looked for, while there is a strong indication that the government will collect something from every dollar earned in British Columbia, regardless of who earns it. Members of the legislature, of both parties, have expressed disapproval of this, claiming that the man with the small income—and referring particularly to the workman—needs all he has. The assessment proposed amounts to one per cent, which means that a man earning \$125 per month would contribute \$1.25 per month in taxes, or \$15 per year.

There will be an increase of \$250,000 in the school grant and an equal division of revenue from the sale of liquor. However, the final settlement of the taxation question, for another year at least, will not be reached until near the end of the present House. Premier Oliver is asking for suggestions from all who have them to offer, maintaining that the government is not tied to any set policy but is trying to meet the wishes of the majority.—B. C. Exchange.

Lethbridge Rebekahs To Visit Bellevue

At the regular meeting of Ray of Hope Rebekah Lodge at Bellevue on Wednesday night next, the Lethbridge degree team will confer the Rebekah Degree on one class of eleven candidates. A cordial invitation is extended to visitors.

Arrangements are being made for the grand opening of the Blairmore Arena on or about December the first. The whole of Southern Alberta will be invited to attend.

Mr. Hugh M. Shaw, the Meighen government candidate for Macleod riding in the forthcoming federal election, was in town on Tuesday, accompanied by Mr. Nelson, of High River.

TO ABANDON ALL CAPITAL SHIP BUILDING

The text of the proposal submitted to the Washington Conference as concerns the three naval powers is as follows:

United States

“The United States is now completing its program of 1916 calling for ten new battleships and six battle cruisers. One battleship has been completed. The others are in various stages of construction; in some cases from 60 to 80 per cent of the construction has been done. On these 15 capital ships now being built, over \$300,000,000 has been spent. Still the United States is willing, in the interest of an immediate limitation of naval armaments, to scrap all these ships.

“The United States proposes, if this plan is accepted:

“1.—To scrap all capital ships now under construction. This includes six battle cruisers and seven battleships on the way and in the course of building and two battleships launched. The total number of new capital ships thus scrapped is 15. The total tonnage of the new capital ships when completed would be 618,000 tons.

“2.—To scrap all of the older battle ships, up to and including the Delaware and North Dakota. The number of these old battleships to be scrapped is 15. Their total tonnage is 227,410 tons.

“Thus the number of capital ships to be scrapped by the United States if this plan is accepted is 30, with an aggregate tonnage (including that of ships in construction, if completed) of 845,410 tons.

Japan

“It is proposed that Japan:

“1.—Shall abandon her program of ships not yet laid down, viz., the Kii, Oowari, No. 7 and No. 8 battle-ships, and No. 5, 6, 7 and 8 battle cruisers.

“It should be observed that this does not involve the stopping of construction as the construction of none of these ships has begun.

“2.—Shall scrap three capital ships (the Matsui, launched, the Tosa and the Kaga in course of building) and four battle cruisers (the Amagi and Akagi in course of building, and the Atago and Takao, not yet laid down, but for which certain material has been assembled).

“The total number of new capital ships to be scrapped under this program is seven, the total tonnage of those ships when completed would be 289,100 tons.

“3.—Shall scrap all pre-dreadnoughts and battle ships of the second line. This would include the scrapping of all ships up to but not including the Seto; that is the scrapping of 10 old ships, with a total tonnage of 169,828.

Great Britain

“1.—Shall stop further construction of the four new Hood's, the new capital ships not laid down, but upon which money has been spent. The four ships if completed, would have a tonnage displacement of 172,000 tons.

“2.—Shall in addition scrap her pre-dreadnoughts, second line battleships and first line battleships, up to but not including the King George V class.

“These, with certain pre-dreadnoughts which it is understood have already been scrapped would amount to 19 capital ships and a tonnage reduction of 411,375 tons.

“The total tonnage of ships thus to be scrapped by Great Britain would be 883,275 tons.”

FOR SALE

The undersigned has been instructed by the owners of the Blairmore Brewing and Malting Company to offer for sale all the machinery installed in the Blairmore Brewery. Will be sold all in one lot or in parts to suit purchaser.

All offers to be submitted in writing at my office in Blairmore.

Items of Local and General Interest

Mr. and Mrs. H. Seyan have returned, after several months spent in Quebec province.

Some women are awfully touchy. A widow brought an action against a paper which said that her husband had gone to a happier home.

Bobbie Powers, former member of the Bellevue hockey team, but now of the Granum Garage, was in town the early part of the week—just taking an inventory of The Pass hockey stock.

As a result of the untiring activities of Sgt. Nicholson and his staff, of the A.P.E., in the enforcement of the Liquor Act, many Pass windows have decided to remove their barriers.

A small room is to be attached to the new Blairmore rink, which will be equipped with comfortable chairs and lounges and a range of steam radiators at which Lethbridge folks may this winter warm up their cold feet.

The editor of this paper has a warm place in his heart for the friends who will bring or send in news items. It is the desire of this paper to give all the news all the time, and those who lend us their assistance to that end have our unbounded gratitude.

Mrs. Charlie Graham entertained at Coleman on Wednesday afternoon of last week, in honor of her mother, Mrs. C. Easton, who is leaving this week for Nelson, where she and her husband will in future reside. Mrs. Easton was one of the real old-timers of Coleman, where she has conducted a millinery business for years and made numerous friends, and considerable regret is felt at her departure.

Achie McTeer, looked upon by Canadians as the fastest rugby, hockey and baseball star of the cow town, arrived here the latter part of last week and entered up on new labors under altogether different conditions and environment than the big city could offer him. Archie appears doubly contented and promises to remain with us, and to assist our hockey team this winter in lauding all laurels.

Major Crollie, Captains Hervey and Tudhope, of the High River aerodrome, have gone to Camp Borden. Captain Tudhope will remain there a month, where he will give instructions at the flying school. After a brief C.A.F. training, Major Crollie and Captain Hervey will proceed to Ottawa to attend a conference of the Canada Air Board. Capt. Howson has charge of the High River aerodrome during the absence of Major Crollie.

We noticed that a fellow was kind the other day for carrying matches in his grip on a train. Laws are getting harder and faster, and we look forward to the day when inspectors will be appointed to enforce the law respecting light suspenders, sharp teeth, ear mops and low necks; and great shall be their reward in heaven if they, after this life, can relate the history to the king of kings in R. B. B. style.

The annual convention of the Union of Alberta Municipalities is being held in Calgary this week.

Rev. Father Gorman returned to Blairmore on Thursday last and is looking well as a result of his several months rest.

Hilaire St. Pierre, a Montreal baker, has had his thirty-sixth child baptized. Mr. Hilaire has been married twice, had thirteen children by his first wife and twenty-three by the second.

Two children playing over a fence behind an Ontario apartment house were shot dead by a woman tenant, who thought the intruders were bandits.

J. Montalbet, a bride, of Corbin, who were united in marriage at Fernie last week; spent several days in these parts visiting friends.

Carl Anderson brought in some fish from a real deer last week. Carl grabbed him in the neighborhood of Gougar Valley, where he had fed him with milk and sweets until the opening day of the season.

The total wheat production this year in the twenty-nine leading wheat growing countries of the world, excluding Russia, reached approximately 2,852,825,000 bushels, or about 190,000,000 bushels more than in 1920.

Call at The Enterprise and select your Greeting Cards. The season is fast approaching and if you have friends at a distance you wish to remember, now is the time to get busy. We have over six hundred samples to choose from at prices from \$1.25 per dozen up.

A complete and authoritative work on the coal resources of the world was published by the International Geological Congress held in Canada in 1918. It may be of interest to our readers to know that this three volume work with accompanying atlas, which originally sold for \$25, can now be had at a cost of \$10 per set, by applying to the King's printer at Ottawa.

Doing Better Here: "Aye," exclaimed Sandy, to his bored London acquaintances, "Scotland's the finest place on earth!" "Then what made you leave it?" asked a disgusted voice, "since you like it so much?" Sandy chuckled, "Aweel, it was like this. In Scotland everybody was as clever as maseel, and I couldn't make muckle progress. But here—" he chuckled again, "here I'm gettin' on vera weel."

The editor of the Coleman Journal, who paid an auto visit to points on the prairie last week and on again in the vicinity of Macleod. We don't doubt it a bit, and know that our esteemed contemporary, like George Washington, could not tell a lie. But we can hardly believe that the only girl in his company, named Lizzie, could have been left out on the bald prairie because of the invasion of a snowstorm. It was ever thus—troubles lurk wherever editors choose to tread.

Two thousand miles have been added to the Alberta rural telephone system this year.

The Army and Navy Veterans, in convention at Toronto, formally endorsed the policy of amalgamation of all veterans' associations.

The concert that was to have been given at the opera house to-night, in aid of the Roman Catholic church, was adjourned to Thursday, December 1st, owing to several of the participants being laid off through colds.

There is a clergyman in the Old Country who persists in refusing to pay his taxes, because, as he says, he has been advised by angel voices not to do so. Can it be that these strange voices are responsible for the tax sale lists we see in every paper?

The boundary between Canada and the United States is simply an imaginary line stretching from the Atlantic to the Pacific. Just so with a modern woman's dress—it is an imaginary line between the shoulders and hips, stretching almost from side to side.

Harry W. Haley, who served with the British army in France, was released from Leavenworth prison on a special order, after serving part of a six months sentence, imposed, so the court martial thought, upon one Thomas G. Jones. Haley impersonated Jones at the trial and went to prison in gratitude because Jones had saved his life in France.

Credit is claimed for a Japanese statesman as being the first to call for disarmament. And the Japanese delegates to the Washington conference came unanimously backed by their nation in support of the limitation of armaments, all in the interest of peace, liberty, justice and humanity—universal brotherhood of man. If all delegations come imbued with a like principle, there can be little doubt of the result of the conference.

An unusually large audience attended the Union church on Sunday evening last. The service was in charge of Mr. John Shevels of Bellevue, in the absence of the pastor, Mr. Young, who was assisting a baptismal service at Hillcrest. Mr. Shevels delivered a forceful address from the text: "Come unto me all ye that labor and are heavy laden and I will give you rest." A full choir was in attendance. After the service of song was held, accompanied by the new Union orchestra, with Mr. J. E. Upton as director.

J. Joseph opened his new store at Hillcrest on Saturday last with a big opening sale advertised through the medium of hills put out by The Enterprise job department, and reports that for the opening day they did more business than in any previous time in their business history. They are satisfied that their patrons and the public of Hillcrest are bent on patronizing the store that believes in patronizing the home printing plant.

Millions of Trees For The Prairies

The Dominion Government has always been aware of the necessity for encouraging tree culture on the prairies, but it was not until 1901 that a really definite and practical scheme for assisting settlers in this work was put into operation. It was in that year that the first distribution of trees was made under the co-operative scheme of the Forestry Branch of the Interior Department. From a small beginning the distribution of trees from the nurseries at Indian Head and Sutherland has grown until it now averages about five million seedlings and cuttings each season, half of which are planted in Saskatchewan, and the balance in Alberta and Manitoba. As a consequence of this distribution, we now find in all parts of these provinces examples of excellent farm shelter-belts.—Norman M. Ross, Dominion Forest Nursery Station, Indian Head, Sask.

Janostak & Lenchucha have opened their new grocery and meat store at Hillcrest and report business good.

H. D. Gerry, auctioneer of Cowley, was in town on Monday accompanied by W. F. Eddy, of Lundbreck.

The ladies of the Union church raised over forty dollars at a tea and sale of cakes, etc., at the Mission hall on Saturday evening last.

H. D. Gerry will conduct an auction sale of cattle, pigs, poultry, etc., at the Holston ranch, Cowley, on December 1st.

Little Olga Belzky was operated upon successfully at the local hospital on Friday last for appendicitis and is reported doing well.

Donald Robertson McIntyre, of Didsbury, was shot and fatally wounded by his father while out deer hunting on Thanksgiving day about twenty-five miles from that town. About a week previous a woman named Blackburn was shot and killed instantly by her husband, while prairie chicken hunting in the same locality.

Only a few days left in which to order your Greeting Cards and have them in time to send to friends afar. If we have not already received your order, call at The Enterprise right away and we will be pleased to show you samples. We also have a splendid display of stockcards that can be supplied at practically a moment's notice.

Competition

"Did the summer resort you visited are great natural beauty?" "It had, but every time I'd start to enjoy the scenery an artificial beauty would stroll past and the landscape would be a total loss."

The driver who stays on the wagon when the load is weighed is worth his weight in coal.

A few of the men may be broke, but every girl has a roll in her stocking these days.

In some parts there is talk of discarding the lady banker, but in other parts they are being looked upon as a safer means for money storage than the vault. Vaults may be dynamited, but a woman's stocking never will.

Welding By Clockwork

In shipbuilding and many engineering operations, it is necessary to fix brass studs and other small parts in iron plates. This operation is usually performed by drilling holes in the plate, each hole being drilled separately. By means of a most ingenious invention recently perfected by a British firm, the process is carried out in a few seconds by electric welding. The working of the machine is almost entirely automatic from the moment the stud is placed in position. Each size stud requires a different time for welding it to the plate, and the machine can be set to give exactly the period required to make a perfect weld. The tests which have been made proved that the machine is able to weld 125 brass studs within the hour. It might be thought that welding does not give such a firm arrangement as securing the stud into a hole in the plate, but when the welded stud is hammered the brass will break before the weld breaks. Another advantage of the machine is that work can be satisfactorily carried out by semi-skilled labor.

Athabaska and Slave River District

The oil producing possibilities of the Mackenzie district have awakened interest in North-western Canada to such a degree that an active demand for information regarding the undeveloped resources of the various localities is resorted to by the Department of the Interior. In order to provide authentic information with respect to the Athabaska and Slave River districts, the Department, through its Natural Resources Intelligence Branch, has published an interesting report on the natural resources of the north-west. A map of the district provides further particulars with respect to transportation facilities and general topography. A copy of "The Athabaska and Slave River District," may be obtained free upon application to the Superintendent of the Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

An Electric Soot Recorder

Information was published recently regarding an interesting instrument for recording the amount of smoke suspended in the air from hour to hour. In this machine a fixed quantity of air is drawn through a piece of wet filter paper which is stained to a certain lower degree by the impurities in the air. Another instrument has been devised in Great Britain for a similar purpose, and it operates on an electric principle. It consists of a covered dish containing a small quantity of electrified water over which the air to be tested is passed. By proper adjustment of the rate of flow of the air all the acids in the air are dissolved in the water, and the solid particles fall into it. The proportion of acid can be readily estimated by chemical means, and the solid impurities make themselves known by changes in the electrical resistance of the water. The advantage of this apparatus is that it indicates the amount of acid in the air as well as the amount of smoke. This is an important point as the proportion of acid has a great deal to do with the harmful effect of air upon stone and other structures.

Calling a man a liar is the last word in wasted talk. If he is a liar he already knows it and you are springing old stuff on him. If he isn't one, you are and he has found you out.

On a breach of the Ontario Temperance Act charge, Harry Greenberg, eighteen years old, was fined \$1000 and costs or three months in jail.

And it is: "Say, buddy, do you remember when we were over there, they used to tell us that when we get back nothing would be too good for us?" "Sure, what about it?" "Well, they told the truth."—The American Legion Weekly.

LET SALLY WEAR THE PANTS

Last night I went down town. To hear a woman lecturer talk. 'Taint more'n a mile and not so far. But Sall and she could walk.

The subject that she talked about was women's rights and wrongs. She 'towed us men won't let 'em take The place where they belong.

She said if things were turned around And women had our place, 'Twould be a tremendous boon To this here human race.

And then she went to work and told How women have to work And skirmish 'round before daylight, While men folks loaf and shirk.

I swam, she made me feel so mean, The way she talked me down, I felt like crawling through my seat And hiding under ground.

But now I've got my mind made up. I'm going to change things round. For in this world no fairer man Than me was ever found.

And I ain't going any more To act the tyrant's part; And if Sally wants to take my place She's welcome, bless her heart.

So when the winter mornin's come, The snow drifts piling higher, She can pull the trousers on And light the kitchen fire.

And waller out and do the chores, And fill the cattle rack, While I lay bravely in my bed, And cuddle little Jack.

And in the summer time I'll let Sall take the team and plow And halter-break the two-year-old And milk the kicking cow.

While I'll stay in and mind the house, And keep the coffee warm, And make the b's, and spank the k's While Sally runs the farm.

—Long Bob.

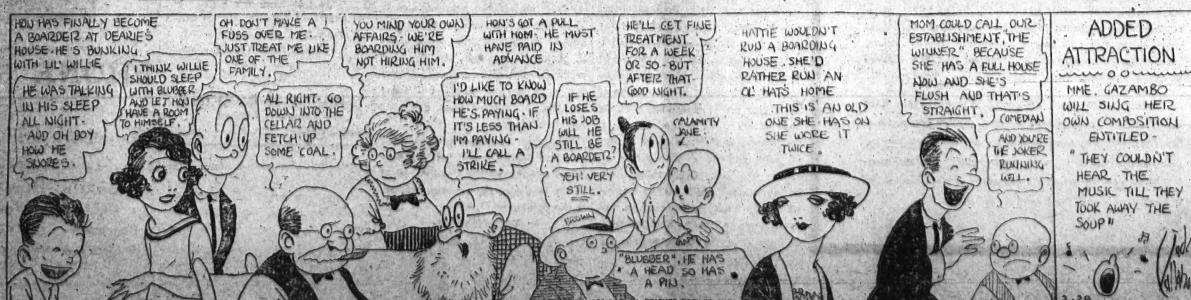

Has Anybody Here Seen Bonnie?

My Bonnie leaved over the gas tank. 'Tis height of the contents to see. He lighted a match to assist her— Oh, bring back my Bonnie to me!

This time last year a provincial sanitary inspector was sent to Blairmore and other places in The Pass, where hygienic and other conditions make life worth living. Parties were then accosted who allowed a potato or apple peeling to creep out over the back doorstep or scap of paper to be wasted at their premises from somewhere else. And about the same time this year an official from Edmonton emerged from the gutters of hat city to again entertain us. As a matter of fact, sanitary and health conditions here were never as bad as they are and have been in the capital city and the least he capital should be a model.

The subscription price of Rod and Gun in Canada, in its new form, is \$2.00 per year, postpaid to any part of Canada, Great Britain or the United States. Leave your order with The Enterprise.

Japanese women are giving up smoking, due to the uplift work being carried on in that country. Formerly all classes of women in Japan smoked in public as well as in the homes.

What Premier Meighen Stands For

"I stand for unity in Canada, for solidarity of conditions and freedom of enterprise within our own borders. The lesson for Canada and the free peoples of the British Empire is to avoid the pitfalls of all the nations which have preceded it and sunk in oblivion, and of those as well that are writhing in chaos and suffering. I shall strive with all my power for national unity, embracing all races, languages and creeds. I shall fight with all my energy for national solidarity, for moderation of thought and action, for orderly progress, for maintenance of law and order, and for policies which have brought us where we stand."

"My aim and object will be to hold the balance fairly and firmly among all classes, and to see, so far as that is possible, that the maximum of profitable labor may be given to all our people, and that they may be encouraged in the idea which I consider the foundation stone of national success, that intelligent effort shall always be suitably rewarded, that the men and women of this country may raise in stature and improve their minds and their material condition according to the measure of their endeavors. These I conceive to be the highest aims of statesmanship."

THE ONLY ONE

In these times of financial stress and strife who is sure of his position today is the one who is specially trained. His place is hard to fill.

We offer you a short cut to a safe position through our special training. Prepare today for a position tomorrow.

Why Labor Should Vote for Hugh Shaw

EVERY member of a Labor Union must be a believer in a protective tariff from the very fact of his membership in a Labor Union. A Protective Tariff is enacted to protect Canadian labor and Canadian manufacturers against unfair and unequal competition from abroad.

Labor Unions even go further than this because they aim to protect against possible unfair competition by workmen of their own country, in fact, against workmen living in the same city, possibly, in the same street.

Canadian industry requires protection against foreign competition but will take its chances against home competitors. Theorists, like Mr. Crerar, often make the academic charge that a Protective Tariff is immoral and selfish and solely for the benefit of the manufacturer, and is not reflected in the wage-earner's pay envelope. We have heard such men say that if some other country can produce goods cheaper than we can, then it is an imposition on those engaged in that particular industry in this country not to be permitted to buy the foreign goods. What those engaged in the home industry will do when driven out by foreign competition is a subject carefully ignored by these academic critics.

Industries to which protective Tariffs apply have some measure of protection against foreign competition, but Labor Unions have protection against both foreign and home competition, and, consequently, Labor Unions should be the strongest supporters of the principle of a Protective Tariff for Canadian industries.

DR. HURSTIS ON FREE TRADE

The following views on the Tariff are expressed by Rev. C. H. Hurstis, D.D., in a recent issue of the Red Deer Advocate, and are well worthy of reproducing:

"If the leaders of the Liberal and the National Progressive parties have a sense of humor—and it is to be devoutly hoped they have—it must be aroused every time each of them reads in the papers how the other side-steps or party-foots when he comes to deal with the question of the Tariff.

"Much as the present writer differs with Mr. Meighen in his political and economic policies, he cannot but admire his sportsmanlike attitude on the question. He is for a tariff not for revenue only, but for protection of life and health, and he talks so bravely that without a protective tariff the country is sure to go to rack and ruin. Toryism on this continent may be, as Mr. H. L. Meighen has recently said, nothing but moneyism, but there is one thing about the Tories everywhere, and that is their standard of 'noblesse oblige.'"

"That Mr. Meighen is wrong, and that a protective tariff is not now and never has been a help but rather a hindrance to the real development of Canada as a whole, no one who has studied the question carefully and without bias can deny. This is not to impute the sincerity of Mr. Meighen and his followers. This will," says Pascal, "be one of the chief organs of belief"—we easily bend our conscience to our dealing."

"But the crowning absurdity in the present campaign is the frantic effort being made to set up England as a high and noble example of the benefits of protection as a fiscal policy! A recent issue of the Calgary Daily Herald has a solemn editorial on the subject, and the boosters for the Meighen party have in the same paper an expressive advertisement, calling attention to the rush in Europe to erect tariff walls between country and country. 'Is Crerar right, and the leading statesmen of the world wrong? cries the advertisement in large letters. This buncome for the purpose of bamboozling the supposedly ignorant electorate."

"It is not well known that England is protecting what are rather absurdly called 'key-industries' simply because the politicians who wrote the Treaty of Versailles—deaf to the protests of Mr. Maynard Keynes and other competent economists—demanded of Germany an enormous indemnity which had to be paid in the only way in which any debt can be paid—in goods? That Germany must pay for the damage she had done no one doubted for a moment. But unfortunately it is not Germany but the rest of the world which is paying today, and Germany is rapidly winning the markets of the world with her goods. The temporary protective policy of England is a counsel of despair—an attempt to protect herself from the too great willingness of Germany to pay her debt in cheap goods which are flooding the markets of England and increasing daily the sum of her unemployment and the idleness of her ships and her factories. This is why England has adopted a fiscal policy foreign to her past splendid commercial and industrial history. So serious is the situation that Mr. Churchill, England's Foreign Minister, is reported to have proposed the cancellation of Germany's reparations bill so far as England is concerned."

"It is the same fiscal policy on the part of such states as France, Italy, Switzerland, Austria, Roumania, and the Balkan States (I quote these names from the advertisement referred to) which is one of the prime causes of Europe's increasing economic misery; and it is the opinion of the world's ablest economists that one hope of reconstruction of Europe is the immediate obliteration of all tariff walls, and the absolutely free exchange of goods. Other things must be done, things which will be discussed, let us hope, in Washington during the present week, but free trade is imperative for the economic aid."

I. O. D. E. Bursaries

The members of the Imperial Order, Daughters of the Empire, here, are a noble example in the bursaries they have established as a memorial—training scholarships to the children of soldiers, sailors or airmen who gave their lives or were permanently disabled in the Great War. Education is one of the most direct investments in the world, and there can be no more lasting memorial to the sacrifice made by the soldier than the opportunity given to his descendants for a wide education and higher aims. The ambition of the young student should appeal to all of us, and we should in all ways assist that we are in sympathy with those who wish to pursue their studies in the halls of our universities.

Miss Constance F. Jaing, National Educational Secretary of the Imperial Order, Daughters of the Empire, has announced this year's award of the bursaries to the 2nd and 4th. Wednesday of the month in the I.O.D.E. hall, Bellevue, at 8 p.m. Sister Francis, V.G.; Sister Randall, R.S.; Sister Goodwin, Treasurer. All bursaries welcome. We go in for a good time.

Visiting members of above branches of the Order cordially invited to attend these meetings.

It is interesting to note that there is a ship named 'New Brunswick' now in the harbor.

vaging of the European civilization.

"Returning to the local situation, we have the astonishing spectacle of men who ask us to return them to office, proposing to continue a fiscal policy in Canada which the whole creation is groaning to get rid of. The true national policy for Canada, if we are to consider the economic welfare not of the few, but of the nation at large is to lower our tariff walls to the utmost—to banish them altogether except as a means of indirect taxation of the people for the upkeep of the Government. Mr. Crerar has announced this as his political philosophy, and Mr. King accepts it personally; but neither of them seems to have the courage of Mr. Meighen to hold his flag to the top of the mast and nail it there."

"In conclusion: we are told by the representatives of the Government—to take a concrete instance—that it is essential that Canada should 'produce' say, agricultural implements. This is not true. Rather what is essential is that Canadians should 'have' agricultural implements, and as cheaply as they can be produced anywhere. And this is true of food, clothing, fuel, and all the necessities of life. We must remember, and this is what some of the politicians want us to forget, that the only permanent welfare of any kind, intellectual, moral, physical, economic, is 'general welfare'—that takes account of even the remotest and humblest citizen; i.e., that is founded upon economic and social justice."

"The free exchange of goods all over this continent and between ourselves and the Mother Country would be the best cure for our economic ills in the opinion of."

Yours faithfully,

CHAS. E. McLEARY

NEW ENCAMPMENT INSTI- TUTED AT BELLEVUE

Armistice Encampment No. 17, I.O. O.P., was duly instituted at Bellevue on Thursday night of last week. Murray Saunders, past grand patriarch, of Calgary, was the officer in charge of institution, and was assisted by P. C. P's A. Morency, W. J. Bartlett, J. Montalbet, W. Patterson, James Crowder and John Patterson, of Crows' Nest Encampment No. 8, Blairmore.

Following the institutional ceremony, the election of officers took place, when the following applicants for charter were elected to office:

A. B. Carr, chief patriarch.
S. Berry, high priest.
H. Jepson, senior warden.
Fred Padgett, junior warden.
E. Excoffin, financial scribe and treasurer.

At 6.30, recess was announced, when the visitors were entertained at luncheon at the Bellevue Inn.

The meeting was again called to order at 7.30, when a degree team of Crows' Nest Encampment was given charge and the Patriarchal, Golden Rule and Royal Purple degrees were conferred upon thirty-four candidates.

Following the degrees, the officers of Crows' Nest Encampment No. 8 assumed charge, when the appointive officers for the new Encampment were announced and duly installed by the District Deputy, P.C.P. William Patterson, assisted by a staff of past chief patriarchs, as follows:

Guide—H. Peters.
First Watch—T. Bradley.
Second Watch—F. Bealle.
Third Watch—B. Dryden.
Fourth Watch—T. Elder.
Inside Sentinel—Walter Warr.
Outside Sentinel—T. Knowles.
Guards of Tent—J. Christie and D. Curry.

Musical Director—A. Hallworth.
Pianist—Ed. Royle.
It was decided temporarily that meetings be held alternately from Blairmore, on the first and third Wednesday of each month.

The new Encampment was placed in charge of the new chief patriarch and officers, when addresses were heard from Past Grand Patriarch Saunders and others. Mr. Saunders conveyed the greetings of the Grand Encampment of Alberta to the new subordinate encampment, wishing them a long and successful career.

The meeting closed, when luncheon was served in good style by the refreshment committee and various toasts followed, interspersed with musical selections.

BELLEVUE MAN IN TOILS

On receipt of a wire, Constable Robinson, of the A.F.P., has left for Victoria, to bring back George Paskovitch, alias Pasko, who is held there on the alleged charge of obtaining money under false pretences. According to the information laid by Dan Moysink of Hillcrest, Paskovitch is charged with having obtained at Bellevue, on October 18th last, the sum of \$600 from him. It would appear that the complainant and the defendant were mining friends at Hillcrest and that the defendant stated his intention of purchasing a business at Hillcrest, asking the complainant to lend him some money for the purpose. Complainant, as he states, believing the story of Paskovitch, took him to the bank at Bellevue, and there arranged with the manager to have the sum of \$600 placed to his credit, to be drawn on for the proposed purchase. This, it is alleged, Paskovitch drew out and left Hillcrest without the knowledge of Moysink or any of his friends. He was traced to Victoria by the complainant who had him arrested there—Ex.

RED ROSE TEA is good tea

Keeps Fresh and Fragrant in the Sealed Package

Canada's "Unknown Soldier"

Proud of the wonderful endurance, bravery and achievements of their soldiers, and rejoicing in the great victory of righteousness and liberty which they, by their heroic self-sacrifice, won for the world, the people of all the Allied countries in the Great War were anxious, not merely to do honor to their glorious dead, but to erect Memorials which would for all time create a lasting impression on the minds of future generations and remain a permanent influence, a national tradition of the highest patriotism.

Many were the suggestions advanced as to the form of such a National Memorial, and noble in conception as many of these suggestions were, the one conceived and carried out by the British Government of bringing the mortal remains of one of the many thousands of unidentified British soldiers home to England and interring the body with all the solemn grandeur and impressive services usually reserved for sovereigns and great statesmen in the historic Westminster Abbey, was admittedly the finest.

Here lies Britain's "Unknown Soldier" surrounded by kings and queens, the Empire's greatest statesmen, admirals and generals, authors, poets and painters, and of all the shrines to be visited with reverence and awe throughout the centuries to come, none will command greater attention and respect than this tomb of an "Unknown Soldier" who gave his life in the Great War in order that liberty should not perish in the world, and that millions as yet unborn should not be called upon to pass through the horrors and sufferings of war.

This "Unknown Soldier" rests in peace in Westminster Abbey, and at his tomb flowers are laid and reverence given, the representative of all the hundreds of thousands of British soldiers, the privates in the ranks, through whose steadfastness and self-sacrifice the Empire lives today and its citizens enjoy the blessings of freedom and personal liberty. This "Unknown Soldier" is representative of that spirit which built the Empire and made it what it is today. But he is representative of something even greater, finer and nobler, namely, that which is the expression of the greatest of all love, the laying down of one's life for another.

So universal has the acceptance been that the British conception of paying honor and tribute to an "Unknown Soldier" constitutes the finest of all Memorials, that it has been followed in France, Italy and the United States. It has now been suggested that Canada should do likewise, and that the remains of some one of the many Canadian soldiers lying unidentified in graves in France and Flanders should be brought to Canada in all honor on a Canadian warship and buried with fitting ceremonies, and in a fitting tomb, in the capital city of the Dominion.

There should be no hesitation in acting upon the suggestion. In no part of the world did the manhood of any country respond more quickly and splendidly to the call to service than in Canada. The youth of this Dominion did not stop to count the cost, but willingly offered their all in defence of home and country and for the maintenance of national honor and the continuance of human liberty. Canada gave over 600,000 soldiers to the armies of the Empire, and one out of every ten rests in a grave across the seas. We cannot bring them all back, but as Lieutenant-Governor Newland of Saskatchewan says in endorsing the suggestion, we can, and should, bring a representative.

Canadians from coast to coast desire to pay all tribute to the memory of their heroic dead. That tribute should be paid, not only by the present generation, but by generations to come. The light which spread a new illumination over the pages of our history and inspired a new enthusiasm and gave birth to a truly national spirit in Canada.

Generations yet unborn will recognize these truths to a far greater degree than we do today. Standing at the tomb of Canada's "Unknown Soldier" in Canada's capital city, future Canadians will pay homage to the sturdy sons of the Dominion who in the years of the Great War proved themselves worthy of their country and their race.

Everything that can be done to keep alive and intensify the pride of Canadians in their country and in the achievements of their fellow citizens should be done in the interests of Canada. Everything that can be done to show lasting honor to Canada's heroic soldiers will, even so, be small in comparison to what those soldiers did for Canada and the honor they brought to this country.

Canada should follow in the footsteps of Great Britain, France, Italy and the United States by preparing a magnificent National Memorial to her soldiers in the tomb of an "Unknown Canadian Soldier" at Ottawa.

Find Valuable Ore

Official confirmation has been received of the report that deposits of valuable iron ore have been discovered on the shores of Lake Athabasca. Samples of iron ore have been brought down to Edmonton and mineral experts have declared them to be of good quality.

New Air Liner For Ocean Traffic

Giant Passenger Monoplane Being Built in England for London-New York Service

A mammoth air liner for service between London and New York is under construction by one of the biggest British aircraft manufacturers. It fulfils the expectations of the designers, the machine will enable 150 passengers to start from the Great Britain, London, near London, at midday, and alight at New York harbor the following morning, travelling at 130 miles an hour.

Everything about the giant ship will be novel. It will be a monoplane with a 400-foot span or high lift wing of great thickness, inside of which will be the passenger accommodation. There will be a restaurant in the body which will be designed along the lines of a boat, and it will carry a landing carriage which will make it amphibious. The first machine, it is calculated, will cost \$1,500,000 but it is estimated that it will be possible to turn out succeeding models at half that price.

The speed of this new trans-Atlantic liner will be far greater than that developed by the B-34, which twice crossed the Atlantic in 1919, a total distance of 6,330 miles. The flight from England to America occupied fifty-six hours under adverse weather conditions. The full speed of this aircraft was sixty miles an hour. In 1917 the German dirigible, L-39, flew from Jamboli, Bulgaria, to East Africa and returned a distance of 8,768 kilometres.

Krupp's Works On Peace Time Basis

Total Number of Employees Is Ninety-Nine Thousand

Krupp's work have now been wholly put on a peace time basis, and the result is as impressive as ever.

Besides the great works at Essen, the concern owns many other works, employing a total of officials and workers of 99,000 at the beginning of last June. The greatest number ever employed at Krupp's was during 1918, when the firm employed 171,000 men, but the present total compares with \$1,000 at the outbreak of the war. The increase is due in part to the introduction of an eight hours' day in place of the previous ten hours' day.

Products obtainable from Krupp's comprise ships, dental requirements, agricultural machines, office fittings, motor lorries, kino apparatus, etc. In fact, everything into which a piece of iron or steel can possibly enter.

Since the collapse of its armaments work the principal new trade undertaken is the construction of locomotives and railway rolling stock. This department is still in course of development already, with a staff of 5,000 men, it can give a yearly output of 300 heavy locomotives, with tenders, and 2,500 fifteen ton trucks.

GLAD HE TRIED THE TONIC TREATMENT

Through Its Eye Strength and Vigor Was Restored

To be tired after exertion is natural. Most men find it difficult to get to normal after such fatigue. But to be tired all the time is a symptom of an anemic condition that must be corrected until the blood is built up. Such an anemic condition is so gradual in its approach that it is so often difficult to persuade the sufferer to do anything for relief. It is in a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerve will be undermined and neurasthenia gains will follow. Digestive disturbances often result from this blood, sleep is disturbed and a general breakdown may occur.

Mr. Wilson Johnson, Nineveh, N.S., says: "A few years ago my system was in a badly rundown condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so sleepless at night that when morning came I felt as tired as when I went to bed. I was taking medicine, but it was doing me no good. Then I read the testimonial of a man whose condition had been similar to mine, who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial. Well, I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can only say I am glad I did so, as I am now enjoying the best of health, and I advise all men who feel run down to give these pills a good trial." Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams Medicine Co., Brockville, Ont.

America Has Premier Huntress

America's premier huntress is Mrs. Frederick Daniel, who has recently returned from a big game shooting expedition in East Africa. With a gun or trophies of her prowess—the tusks of elephants and rhinoceroses, the skins of seven lions, the horns of buffaloes, a leopard and cheetah.

BENJAMIN H. KAUFFMANN, Reading, Pa.

"There's no doubt in my mind that Tanlac saved my wife's life." was the positive statement of Benjamin H. Kauffmann, 506 Blagum St., Reading, Pa., popular clothing salesman for the well-known firm of Croll & Keck:

"I was almost desperate from worrying over her condition, as she had suffered so long without getting relief from the pills, but the present pills now when I see the change in her. Why, she doesn't show her age by twenty years and declares she never remembers feeling better in her life. Her health was falling steadily for a year as a result of catarrh of the stomach, and I have never seen anybody suffer as much from indigestion and nervousness as she did."

"After a five weeks' course of Tanlac she was like another person, and I'm firmly convinced that years have been added to her life. It makes me shudder now when I think what the result might have been if she hadn't taken Tanlac in time."

Tanlac is sold by leading druggists and general merchants everywhere.

Community Life Popular

New Settlements in B.C. Enjoy Pleasures of Social Intercourse

Community life, with the conveniences and pleasures of greater human intercourse, are popular in the ranching and farming districts of British Columbia, and some sixty new communities have come into existence in the past year, bringing the total number up to 2,209. The new settlements are largely created by the occupation of new lands by soldier settlers.

The Sunny Side

A man once planted two rose trees, one on either side of his house. The trees were equally strong and healthy, but after a time the one grew and prospered, the other, withered and died. Then the man discovered that the living one was on the sunny side of the house. Live on the sunny side of the street! Don't do shady things.

Enormous stocks of oatmeal have accumulated in Scotland, because the working classes are giving up eating porridge, say the dealers.

Externally or internally, it is good. When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissues, thus the most of the trouble is immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affection of the bronchial tubes and respiratory organs. Try it and be convinced.

Best Show of Saskatchewan Sheep

"The best sheep show ever held in Saskatchewan in which exhibits were confined to Saskatchewan," was the comment of J. Q. Robertson, livestock commissioner, at the first of a series of winter fairs, which concluded with a sale of exhibits at Saskatoon. Two hundred spectators attended the show, but bidding was slow with few buyers.

His Grievance

"Ma, teacher's awful mean." "Hush, my son, you mustn't say that." "Well, she is! She asked for my knife to sharpen my pencil and she made a bad mark."

Hardens Money Metal

A process has been discovered for hardening money metal, which consists of adding so that it can be used in the manufacture of tools that require sharpened edges.

ECZEMA

ment for Eczema and skin irritations. It is a powerful skin cleanser and it kills the skin. Sample box for 25 cents. Send for sample for postage. Dr. J. H. Williams, 1000 Broadway, New York, N.Y.

"YOUR TEETH"

HEAD INFECTION

By RITA PROCTOR MCGHEE, D.D.S., M.D., Editor of "Oral Hygiene"

The great majority of bodily infections are due to abscesses in some part of the head, usually in the mouth, throat, nose or in the little cavities that are located in a chain from the base of the nose backward to the under surface of the skull.

These cavities are called sinuses. Whenever there is an abscess that causes absorption of the poisonous material into the blood stream, it is called a focus—a focus of infection. The reason so much attention is given to mouth infections is not because they are worse than any other infections, but because there are so many opportunities for infection in the mouth.

There are twenty temporary teeth which, in the normal course of life, are followed by thirty-two permanent teeth. Consequently, every one of us has the possibility of fifty-two sources of infection in the mouth alone, unless the teeth, both temporary and permanent, are properly cared for.

Every infection shortens life either very slightly or very considerably. In order to keep a clean blood stream, points of infection must be removed, but how much better it is, and how much more sensible it is, to avoid these infections.

So far as the mouth is concerned, infection can almost always be avoided by proper care, in time.

The best time to begin preserving your health for the future is now. Just think of the wonderful opportunities ahead of us in this country. Only those who have health and energy can have the success of which they are capable. Pus is the enemy of success.

Turkey to Borrow From France. After an exchange of ratifications of the treaty between France and the Turkish Nationalists, the National Assembly has authorized the finance minister to contract a loan of ten million Turkish pounds. (A Turkish pound normally is worth about \$4.39). The proceeds of the loan will be used to meet the requirements of the army.

Well Worth Trying. Sufferers from Asthma who have tried many forms of treatment, without beneficial results, should not succumb to despair. They should at once procure a package of the genuine Dr. J. D. Kellogg's Asthma Remedy. The remarkable record established by this standard remedy is convincing proof of its extraordinary merit in the treatment of this agonizing ailment. If you are one of Asthma's many victims try Dr. J. D. Kellogg's without delay.

Want Hospital Act Amended

Joseph Needham, of Unity, Sask., was elected president of the Saskatchewan Hospitals Association at the annual convention held in Regina recently. Before the close a deputation visited the Provincial Government with the request for amendments to the Hospital Act.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Expeller to drive out the parasites.

Calling a Man a Liar

Calling a man a liar is the last word in wasted talk. If he is a liar he already knows it and you are springing old stuff on him. If he isn't one, you are and he has found you out.—Cynthia Democrat.

The warmth found in a covering of wool or snow is due to the same reason—the holding of air in the interstices of both.

Keep Your Health

America's Pioneer Dog Remedies
118 West Hildreth St., New York, U.S.A.

CORN'S

Lift Off with Fingers

FRANK'S CORN REMEDY

Doesn't hurt a bit! Drop a little "Freezoon" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with your fingers. Truly!

Your druggist sells a tiny bottle of "Freezoon" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the nail, without soreness or irritation.

Use Every Effort To Attain World's Desire States Hon. Balfour

Washington.—Delegates of the British Empire approach the arrangement and far Eastern conference "in a spirit of confidence and high resolve," the acting head of the British delegation, Hon. Arthur J. Balfour, declared upon his arrival at Washington.

"It is more than four years," Mr. Balfour said, "since I left this well-remembered scene and said farewell to many friends at Washington. It was a most critical stage in the great war, and notwithstanding that there was nothing more to be feared from the enemy's battleships, the submarine campaign, though its intensity had somewhat diminished, was still most formidable. In the west and in the east the victory by land hung in the balance. America, from the Atlantic to the Pacific, animated by a single spirit, was concentrating her vast resources and preparing to throw her whole strength into the world struggle. We all know the result. It came more completely and more quickly than most of us had dared to hope; and exactly three years ago the greatest of victories confirmed the greatest of wars."

"A little thought, when I took leave of those from whom I had received such endless kindness, that I should again be called upon to revisit you, as the representative of Great Britain; still less did I think that three years after the armistice was signed, our whole thoughts would still be directed towards completing the work of peace. But so it is. Nothing could less resemble the work that had to be done in 1917, than the work in which we are all concerned in 1921. Yet they are not only intimately connected, but they form a part of the same international endeavor and he would be a rash prophet who would say that the victories of peace are easier to attain than the victories of war. But surely we may approach these new labors in a spirit of confidence and high hope. We must not indeed either ask for or expect the impossible, although what is within our reach is worth our utmost efforts. And I cannot doubt that under the wise guidance of your president, who has been fortunate enough to attain it, most happy was the inspiration which moved him to summon this conference. I am convinced that all those who are going to meet here in council, and the governments which they represent, will be directed to the best of their ability to cooperate with him in making it a success. This is the world's desire; it will not fail of achievement."

Cocaine Smugglers Arrested

Drug Intended For Sale to Allied Troops on Rhine
Geneva.—Nine men were arrested at St. Louis, near Basle, a few days ago and accused of smuggling ten pounds of cocaine, worth \$15,000 into the occupied Rhine territory. The drug was intended for sale among the Allied troops by beautiful women, mostly dominatrices, at an enormous profit. The band of smugglers is large, and further arrests are expected.

Explosion Causes Fire
Shawnee, Ohio.—An explosion at the Chicago, Rock Island and Pacific Railroad shop, spread flames over the entire structure. The entire fire department responded to the alarm. The shops here are the second largest of the Rock Island system.

Portland, Ore.—James McCleave, Victoria, B.C., took first prize in the lightweight hunter class with Vitality, and Walter Spore, Jr., of Edmonton, was second in the same class with Domino, at Portland's annual horse show.

Railway Board Will Defer Decision On Grain Freight Rates

Winnipeg.—No decision will be rendered in the application for permission to allow the Canadian Pacific Railway Company the right to enter the Drumheller coal field over the line of the Canadian National Railway, until a public hearing has been held at Ottawa, it was announced by the board of railway commissioners. Declaring that the basic industry of Western Canada—agriculture—was faced with absolute prostration, that farmers were leaving the country for the cities, and that grain traffic of the

Lloyd George May Yet Attend Conference

Washington.—Mr. Lloyd George, in a personal message delivered at the state department by Ambassador Geddes, expressed regret at his inability to attend the opening session of the conference and declared that nothing but the intensely delicate state of the Irish negotiations and matters relating to unemployment legislation in parliament precluded his attendance. He stated that he hoped to be present before the conference reached the deciding stage of its momentous work.

Fire Destroys Ontario Homes

Only Two Members of Family at Kearney Escape
North Bay, Ont.—Five persons dead and one child badly burned, was the total reached in the casualties of a fire which destroyed three houses at Kearney, Ont.

The dead are: Mrs. Fred Wheeler, her baby girl, Doris, aged three months; Doris, aged about three years; Roy Wheeler, aged about six, and Sophie, 17, who died from burns. Another child, Mildred, is in a critical condition. The only members of the family to escape were William, aged 23, and Freddie, aged nine, who jumped from a window at the rear of the house. William made a brave attempt to rescue his mother from a front room but she failed to answer to his calls. She was dead.

Returns From Perilous Journey

Small Motor Boat Made Journey to Siberian Coast
Vancouver.—The "little motor ship, Casco," captained by G. L. Lee, under charter to the Hudson's Bay Company, has returned from an adventurous journey to the North Siberian coast. The Casco left here early in June and visited a number of ports in the Behring and Siberian Seas. At Petropavlovsk, while refueling gas tanks on a launch alongside, two of the Casco's crew were killed in an explosion. They were G. A. Clucas and J. O. Overhill, engineers. Sydney Elroy, of Vancouver, sustained severe burns when he tried to rescue Clucas at the risk of his life.

Ten Killed In Portugal Train Wreck

Rails Placed Across Track Were Cause of Fatality
Lisbon.—Ten persons are reported to have been killed and eight injured, when a passenger train from the province of Alentejo bound for Lisbon, was wrecked by rails placed across the track. Many of the killed and wounded were women and children. Railway workers have issued a manifesto declaring that they had no part in the wrecking of the train.

Patronize your local merchant and thereby help to build up your home town and community.

Threatened Strike of Chinese Police

Trouble Brewing Over Non-Payment Of October Salaries
Peking.—Lawbreakers have a pleasant outlook if the threatened strike of judicial officials and police materializes. The judges of the various lower and higher courts have addressed a petition to the cabinet for their salaries, which are in arrears, threatening to cease work if they are not paid. The police have not received their salaries for October, and they also are threatening to strike. They ask a \$200,000 reserve fund to assure them of full rice bowls.

Britain Will Pay Interest to U.S.

Arrangement Has Been Made to Pay \$500,000,000 Yearly

London.—An arrangement has been made to begin paying the interest on the debt owed by Great Britain to the United States at the rate of \$500,000,000 yearly. It was announced in the House of Commons by Sir Robert Horne, chancellor of the exchequer.

Sir Robert made this announcement in the course of a statement on the budget prospects. He added with emphasis: "I hope this remark about the debt we owe the United States will not be made the occasion for any discussion of the inter-allied indebtedness. It does not conduce to the friendliness of the feeling between the United States and ourselves to discuss that matter at all at present."

Increase in Manitoba Population

1921 Census Shows Province Is Growing Rapidly

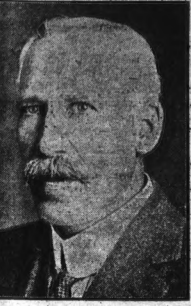

Ottawa.—The result of the 1921 census shows that the population of the province of Manitoba increased from 161,150 in 1911 to 218,000, an increase of 42.22 per cent. The population of Winnipeg increased from 136,035 in 1911 to 178,364 in 1921, an increase of 42.22 per cent. The city of St. Boniface increased from 7,433 in 1911 to 12,515 in 1921, an increase of 5.323, or 71.20 per cent. A recent bulletin from the census department gave St. Boniface a population of 13,518. This, it was explained, was due to a typographical error.

The city of Brandon increased from 13,333 in 1911 to 15,332 in 1921, an increase of 10.59 per cent. Forage La Prairie increased from 5,892 in 1911 to 6,748 in 1921, an increase of 14.69 per cent.

New Shippers to Trail Smelter
Nelson, B.C.—Six new shippers, all from the Sloane, sent ore to the Trail smelter during the first week in November. The week was also notable for having one of the heaviest tonnage of the year, 11,307 tons of ore and concentrates being received. The total receipts for the year to date at Trail stand at \$48,508 tons.

U.S. Food Prices Decrease
Washington.—Retail food prices decreased between Sept. 15 and Oct. 15 in nine of the eleven principal U.S. cities from which reports were received, the Department of Labor announced. Among cities reporting decreases were Detroit, 2.6 per cent, and Minneapolis a decrease of two-fifths of one per cent.

Japan Facing Deficit

Situation Will Make the Strictest Economy Necessary

Tokyo.—Japan faces a deficit of 50,000,000 yen for the present fiscal year, the cabinet was told by Baron Takahashi, minister of finance. He added that current revenues indicated this figure might be even greater. Commenting on his statement, the Yomiuri Shimbun says:

"The situation renders strict economy in framing the new budget absolutely necessary. The finance department thus will have to resort to the broadest policy of retrenchment in examining the draft estimates presented by each government department."

U.S. Loan Declined

Victoria Can Raise Funds in London When Required

London.—A Melbourne dispatch to the Exchange Telegraph Company reports W. M. McPherson, treasurer of Victoria, as announcing that he had declined "a tempting offer of a United States loan to Victoria." The declaration, he said, was because of the fact that he had completed negotiations in London for a loan to be available when the government here desired to raise funds through this means.

Auto Runs Into Water

Four Men Have Narrow Escape Through Driver's Error

Prince Rupert, B.C.—Four men narrowly escaped drowning when a closed automobile in which they were riding plunged over a wharf here and sank in the harbor. The men were trying out a new car, and the driver threw it into "high" when he meant to apply the brakes. They had to fight their way out of the closed car while under water.

Report Anti-Bolshevik Revolt
London.—Cecil Harcourt, under-secretary for foreign affairs, replying to a question in the House of Commons, stated the government had received a report that an anti-Bolshevik revolution had broken out in the southern part of Russia. He said no information had been received regarding a report that General Futera, Ukrainian leader, was engineering the revolution from Rumania.

World Is Settling Down To Work, Says Lloyd George

Development of Empire's Resources

London.—The necessity for more rapid development of the Empire's resources with a view to finding openings for the millions of surplus British population and new markets for British goods, was emphasized by a deputation representing the empire development parliament committee which waited on Winston Churchill, secretary of state for the colonies.

Great Britain Objects to French Priority

Agreement Regarding Reparations Injurious to British Interests

Washington.—Objections have been made by the British Government to the Loucheur-Rathenau agreement under which Germany would pay a considerable part of reparations in kind, that is in building materials and machinery, for the reconstruction of the northern departments of France.

The protest, which has been forwarded to Premier Briand by cable from Paris represents that the agreement gives France a priority in payment over other allies and is thus injurious to British interests.

Comment among members of the French delegation to the armistice conference is that it was really upon the suggestion of British statesmen that the French Government authorized M. Loucheur to negotiate with M. Rathenau.

The London point of view was that Germany could never pay more than a percentage of reparations in cash and that France ought to take products in part payment.

Shorn of Splendor

Lord Mayor's Show in London Is Curtailed With a View to Economy

London.—The historic procession of the Lord Mayor of London was shorn of much of its customary splendor with a view to economy in the face of prevailing distress. The usual banquets in connection with the election of new mayors throughout the country were abandoned in many places for the same reason.

Gets \$15,000 For Auto Injuries

Winnipeg.—For injuries received when he was struck by an automobile, Alexander T. Milne, local contractor, was awarded \$15,000 by a jury in the court of King's Bench. Mr. Milne brought suit against the Ford Motor Co. of Canada, Limited, and P. H. Campbell, local sales manager, and driver of the car, for \$30,000. The case may be taken to the court of appeal.

Waterways Plan Condemned

Montreal.—A final report strongly condemning the scheme for an ocean ship canal to the Great Lakes was presented to the local chamber of commerce by its transportation and Georgian Bay Canal committees and unanimously adopted by that body.

London.—Mr. Lloyd George, speaking at the Lord Mayor's banquet, declared that there was a better prospect of Great Britain's proposals to Ireland being heeded today and Ireland accepting the invitation to enter the British commonwealth as an equal than for years, but that the conference was still in a critical stage. Beyond this he categorically refrained from divulging the results or the possibilities of the conferences which are now being held with the Irish representatives.

In his opening remarks the Prime Minister alluded to the economic troubles afflicting the world, such as followed the Napoleonic wars. He expressed the conviction that the force of the epidemic was already spent, and followed with a recital of numerous symptoms indicating that a revival was coming, particularly that fact that "in every land the slackness that seemed to overcome labor is passing away."

"The world is settling down to work," said Mr. Lloyd George, "and it is work alone that will fill the depleted tills which will enable purchases to come to the markets. The blue sky is beginning to emerge. The Washington conference, summoned by President Harding, is like a rainbow in the sky, for, without the assurance of peace, restoration of business is impossible."

"This conference comes none too soon. So far the war has not had the effect which every sane man anticipated from it, in arresting the growth of armaments. Man is the most unteachable of all animals. If you inflict punishment upon any other animal he quickly learns the lesson. But, take the late war, it was the most terrible destruction in the history of the world. That lesson was scourged deep into the flesh of the world, and yet no sooner are we out of it than the nations spend their substance in devising and amassing fresh engines for war; fresh subjects spring up everywhere to justify war. You might imagine that the one purpose and glory of national organization was human slaughter."

"The London point of view was that Germany could never pay more than a percentage of reparations in cash and that France ought to take products in part payment."

Dam Has Destroyed Famous Trout Pool

Waters on Nipigon River Diverted for Hydro Use
Port Arthur, Ont.—Cameron Pool on the Nipigon River, one of the most famous trout fishing spots in the world which has provided trophies for homes and clubs in Canada, the U.S., Great Britain, France and other countries is no more. It ceased to be a part of the river with the completion of a dam, creating a diversion of waters for use of the hydro electric plant, which delivers power to Port Arthur.

The pool has become a pond in which it is believed there are still many fine trout, which will die as soon as the water becomes stagnant.

Trouble in Montenegro

Natives Rebel to Secure Independence From Serbia
London.—An insurrection has broken in Montenegro for the purpose of securing Montenegrin independence from Serbia, according to an Exchange Telegraph dispatch from Rome which connects the insurrection with the Albanian situation.

A Montenegrin battalion, says the message, has seized the highly important strategic height of Mount Lovcen. Vast forest fires, alleged to have been started by the Serbs, are raging in the vicinity of Podgorica.

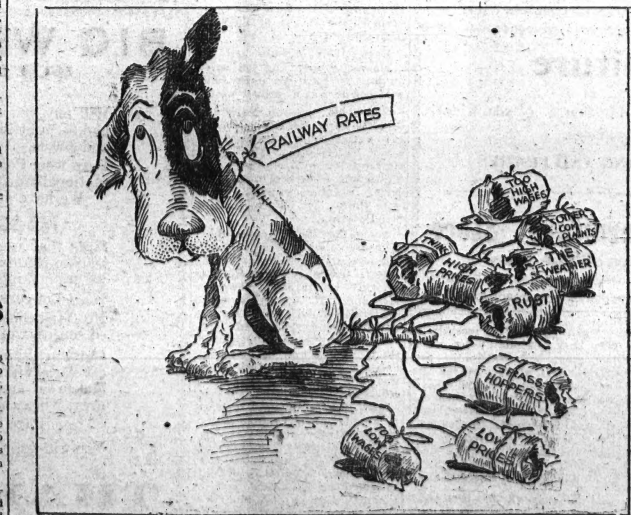

The advance of Jugo-Slav troops into Albania, has been arrested by heavy counterattacks on the part of the Albanians, according to a Central News dispatch from Rome.

Welcome for Prince

London.—The Delhi Chamber of Princes has unanimously adopted a resolution requesting the viceroy to convey to the Prince of Wales, when he lands in India, expressions of the warmest greeting on behalf of the chamber, emphasizing the attachment of the Indian princes to the Imperial throne.

Selling Out Racing Stable

Winnipeg.—D. J. McDonald, well-known race horse owner of the city, is going out of the racing game and is selling his entire stable. Phil Patch, 2,05 1/2, one of the leading pacers this season, is among the horses to be sold.

Mrs. Shields, of the public school staff, spent Thanksgiving in High River.

Mr. and Mrs. H. C. McNabney spent the Thanksgiving holiday with friends in Calgary.

Miss Rennie Kellock, sister of Mr. George Kellock, is paying an extended visit to her brothers of this town.

Master John Johnston had the misfortune of spraining his wrist on Sunday last. We hope John will soon be back at school again.

On Tuesday evening, November 8th, Mrs. Herdman McLeod gave a whist drive in honor of the senior hockey boys. There were sixteen tables in operation. Miss Smith was winner of the ladies' prize, while consolation prizes were won by Mrs. W. Gates and Mr. Davidson.

Ten of the fifteen teachers which comprise Coleman staff attended the teachers' convention at the central school, Lethbridge, on Thursday and Friday, November 11th and 12th. A very instructive convention was held. The lectures were both entertaining and beneficial, and were well attended.

On Thursday evening the Hon. Perrin Baker, minister of education, addressed the teachers and others in the auditorium of Wesley church, and a splendid musical programme was provided. It was decided at the convention that teachers' institutes should be held in each of the inspectorates, so that teachers who find it difficult to attend the Lethbridge convention may have an opportunity of meeting other teachers and discussing the various problems that arise.

W. I. Hutton has returned from a brief holiday spent with his sister and friends in Winnipeg.

We regret to learn of the illness of Mrs. Peter Patterson, who has been confined to her bed for some days.

Another record trip: Archie McLeod left Blairmore at 11:15 Monday night for Calgary, and was back in Blairmore at 5:15 that same night.

A moving picture show, entitled "Across Canada," was put on at the Orpheum on Tuesday night by Rev. Mr. Young. A collection was taken.

J. B. Risk, of Thael & Risk, has moved his family up from Lethbridge. They have taken up residence in the new apartment block in West Blairmore.

A number of curling enthusiasts visited the new rink on Tuesday afternoon, and levelled off and placed the three rinks in readiness for the ice-maker.

The initiatory degree will be conferred at the regular meeting of the local lodge of the I. O. O. F. on Tuesday night next. A full attendance is requested.

Fruit shipmen from the Okanagan Valley this season, compared with the two previous years are as follows: 1919—1789 cars; 1920—1443 cars; 1921—2849 cars.

Ringland Brothers, of Macleod, have undertaken to make ice for the Blairmore and Coleman skating and curling rinks, and entered upon their duties this week.

Don't fail to hear Dr. Patton's lecture on Monday night next, at the Union church, on the subject of "Why the Canadian Dollar is discounted in the United States."

Lieut. R. G. Swift, of Magrath, undertook to kill skunk to make a collar for his spouse. To show her appreciation of his gallant deed, the officer had to sleep out in the garden ever since.

We understand that work will be commenced shortly on the foundation for general offices of the West Canadian Collieries at Bellevue. The site is near the new wash house, and the building will be of elaborate proportions.

A grand bazaar will be held under the auspices of the Ladies' Aid at the Methodist church, Bellevue, on Tuesday, November the 29th. Sale of fancy work, home cooking, candies, etc. Bazaar to open at 6 p. m. Refreshments will be served.

A deputation of citizens waited upon the town council at Blairmore to protest against the activities of the town police in support of the enforcement of the Liquor Act. After hearing the case, the council unanimously endorsed the efforts being put forth by their official.

"Red" Panalqua has been the guest of the courts during the week, and has been invited to be with them again about Tuesday next. Refreshments may be served.

Rupture Expert at Lethbridge

Seeley, Famous in This Specialty, Called to Lethbridge.

F. H. Seeley, of Chicago and Philadelphia, the noted time expert, will personally be at the Lethbridge Hotel, and will remain in Lethbridge Saturday only, Nov. 20. Mr. Seeley says: "The Spermatic shield will not only retain any case of rupture perfectly, but counteract the opening in 10 days on the average case. Being a vast advancement over all former methods—examination instantaneous, effects immediately appreciable and withdrawing any strain or position. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.
Home Office, 117 North Dearborn St., Chicago.

The thermometer at White River Ont., registered 20 degrees below zero on November the 12th.

IN THE MATTER OF THE ESTATE OF JOSEPH PISONY, Jr. late of Camp Creek, in the Province of Alberta, deceased.

NOTICE TO CREDITORS AND CLAIMANTS

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the late Joseph Pisony, Junior, who died on or about the 9th day of September, 1921, at Blairmore in the Province of Alberta, are requested to forward to the undersigned solicitor for the Administrator of his estate, on or before the 20th day of December, 1921, a full statement of their claims duly verified, or any securities held by them, and after that date the Administrator will distribute the assets of the estate among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to his notice.

DATED at the Town of Blairmore, in the Province of Alberta, this 12th day of November, 1921.
JOSEPH PISONY, SR., Administrator.
JOSEPH E. GILLIS, Solicitor for the Administrator.
